

Three frameworks. *One core.*

Security and compliance native to the platform — not bolted on.

HIPAA

BAA-READY OPERATIONS

GDPR

FULL EU COMPLIANCE

EHDS

2027-READY FROM DAY ONE

Enterprise security and compliance built into the platform core — not bolted on as an afterthought. Cryptographic audit chains, automated PII detection, and comprehensive access controls.

WHAT YOU GET

- 01 **HIPAA.** PHI encryption, access logging, and BAA-ready operations.
- 02 **GDPR.** Data minimisation, right-to-deletion, and consent management.
- 03 **EHDS.** Full HealthDCAT-AP R5 via the dedicated EHDS Platform.
- 04 **PII / PHI detection.** Automated classification and anonymisation.
- 05 **Audit chain.** SHA-256 cryptographic tamper detection end-to-end.
- 06 **Multi-tenancy.** Strict organisation isolation at every layer.

IDEAL FOR

- CISO
- Compliance Officer
- Data Protection Officer

KEY USE CASES

- Audit readiness and attestation
- Cross-border data handling
- Regulatory reporting
- Access governance and control

DIFFERENTIATOR

Three regulatory frameworks natively integrated — HIPAA, GDPR, and EHDS.

DEPLOYMENT

Cloud · On-premise · Sovereign
