

# Every EHR. *One engine.*

*Enterprise integration with native EHR connectors and automatic Mirth migration.*

5+

NATIVE EHR CONNECTORS

15+

HEALTHCARE PROTOCOLS

50k/s

SUSTAINED MESSAGING THROUGHPUT

Enterprise-grade integration engine with native connectors for every major EHR system and healthcare standard. Includes automatic Mirth Connect migration for zero-downtime modernisation of legacy interfaces.

#### WHAT YOU GET

- 01 **Native EHR connectors.** Epic, Cerner, Dedalus, Allscripts, athenahealth.
- 02 **Healthcare protocols.** HL7 v2.x, FHIR R4, X12 EDI, DICOM, openEHR, CDA.
- 03 **SAP Healthcare.** Seven-module integration suite out of the box.
- 04 **Mirth migration.** Automatic channel migration with zero downtime.
- 05 **High-performance messaging.** 50k+ msg/sec sustained, with back-pressure and replay.
- 06 **Bidirectional transforms.** Schema-driven mapping in both directions.

#### IDEAL FOR

- Integration Director
- Interoperability Officer
- IT Operations

#### KEY USE CASES

- EHR-to-FHIR migration
- Multi-system integration
- Claims submission workflows
- Lab results routing

#### DIFFERENTIATOR

*Most comprehensive EHR connector set plus an automatic Mirth migration path.*

#### DEPLOYMENT

Cloud · On-premise · Hybrid
