HEALTHDCAT-AP COMPLIANCE

2025/327

EU REGULATION ALIGNMENT

Production-grade EHDS compliance service implementing the full HealthDCAT-AP Release 5 specification and EU Regulation 2025/327. Manage health data catalogues, enforce three-tier access rights, integrate with Health Data Access Bodies (HDABs), and federate via RDF.

WHAT YOU GET

- 01 **HealthDCAT-AP R5.** Catalogue, Dataset, Distribution, Agent, HDAB, DataService.
- 02 **Three-tier access.** Public, Restricted, and Non-Public — enforced by HDAB policy.
- 03 **SHACL validation.** Automatic compliance checks against HealthDCAT-AP shapes.
- 04 **RDF federation.** Turtle, JSON-LD, RDF/XML, N-Triples for cross-border exchange.
- 05 **Data cataloguing.** 18 models covering catalogues, distributions, vocabularies, legal bases.
- 06 **Multi-source ingestion.** FHIR servers, Connect channels, S3, GCS, Azure Blob.

IDEAL FOR

- DPO
- EU Compliance
- CDO
- Research Directors

KEY USE CASES

- EHDS regulation readiness
- Health-data cataloguing and governance
- Cross-border data exchange via RDF
- HDAB-controlled access to personal data

DIFFERENTIATOR

The only healthcare AI platform with native EHDS compliance — HealthDCAT-AP R5, SHACL, and HDAB integration built in.

DEPLOYMENT

Cloud · On-premise · EU Sovereign · EHDS Ready
